
Sam the
Rocket Man
SAM

Meet Sam! Sam loves building rocket ships. He's building a very special rocket that will take him all the way to the moon. But Sam needs your help!

Sam paints his rocket yellow and red. There's even room for his pet cow, Moo! Are you ready for a trip to the moon?

Sam packs peanut butter sandwiches for himself, and fresh grass for Moo. Sam also packed birdseed. But there's one more thing he needs: special rocket fuel!

Oh no! Sam doesn't have any rocket fuel! He needs one whole gallon for his trip to the moon. Can you help Sam fill his container?

Here goes the first pint of special rocket fuel! One pint! Can you see the blue fuel rising?

Sam adds one more pint. Let's count: one, two! Sam now has two pints of rocket fuel.

In goes another pint! Now Sam has three pints. Can you find the number three on the measuring container?

In goes another pint! Now Sam has four pints.

1 Gallon
(8 Pints)
— 8 Pints
— 7 Pints
— 6 Pints
— 5 Pints
— 4 Pints
— 3 Pints
— 2 Pints
— 1 Pint
SAM
4 Pints
=
1/2 Gallon

Look! Sam has four pints! He's halfway there! He needs four more pints to fill the container. Keep helping Sam!

Great job! Sam now has five pints. Just three more to go! And look who's hiding nearby. Can you find the little yellow chick?

Sam has five pints now. Can you see the blue fuel rising?

Six pints! Sam is getting closer to the top. How many more does he need? That's right, just two!

Wow! Sam adds another pint. Now he has seven! Just one more pint and his container will be full!

Hooray! Eight pints! Sam now has one whole gallon of special rocket fuel! Eight pints make one gallon. Thank you for helping Sam!

Hooray! Sam has one whole gallon of special rocket fuel! Now it's time to fill his rocket. Watch Sam pour the fuel into the tank. Get ready for blastoff!

Sam is ready for his trip to the moon! He has one gallon of special rocket fuel, birdseed, peanut butter sandwiches, and plenty of grass for Moo. It's almost time for liftoff!

Three, two, one... BLAST OFF! Sam and Moo are flying to the moon, all because you helped! Thank you for joining their adventure!

The End
SAM

Anthony Cedrone

Let's Count with Sam!

1. How many pints make one gallon?
2. How many pints make half a gallon?
3. What color was Sam's special rocket fuel?
4. What is the name of Sam's pet cow?
5. Where did Sam and Moo travel in their rocket?

Let's Count with Sam!
Answer Sheet
SAM
1
How many pints make one gallon?
8 pints
2
How many pints make half a gallon?
4 pints
3
What color was Sam's special rocket fuel?
Blue
4
What is the name of Sam's pet cow?
Moo
5
Where did Sam and Moo travel in their rocket?
To the Moon
